

Litepaper (because imagine writing a white one)

14th August 2025

INTRODUCTION

RateCoin (\$RATE) is **just a meme** coin (forget all that “ this is not just a meme BS”). It’s an Attention Capital Markets (ACM) tradeable narrative vehicle **intended to capture the volatility and chaos of central banking, rate hikes, CPI prints, and general macro madness**. Launched through PumpFun — the proving ground of meme liquidity, hype and of course, jeetery— \$RATE **parodies the Federal Reserve policy** while delivering the kind of price action central bankers could only dream of (I guess?).

Put very simply: this asset is the designated vehicle for interest rate speculation on Solana blockchain **because, why not?**

Welcome to the Meme Reserve. We bring you interest rate reflexivity.

WHAT IS \$RATE?

\$RATE is an Attention Capital Markets coin (aka sh*t coin) built at the intersection of macroeconomic policy and market reflex — a digital asset designed to capture the chaos of central banking headlines and the volatility they ignite. It doesn’t promise traditional yield or utility or any of that Larp. Instead, it offers something more pure, more true: reaction-based, speculative value powered by narrative, attention, news cycles, market cycles, sentiment, and the spectacle that is modern monetary policy.

In an era where every Fed whisper reshapes risk sentiment, \$RATE captures those shifts — turning rate decisions, Powell speeches, CPI reports, and yield curve spasms into meme-fueled, community-driven market moments. Reactive.

Pre-product, pre-fundamentals; just interest rate reflexivity (TAM).

The only alpha is anticipation. Happy QE, Happy Trenching.

TOKENOMICS

The total supply of \$RATE is **capped at 1,000,000,000 tokens**. Here's how we're allocating that supply in a way that supports long-term growth, incentivizes community participation, and fuels narrative-based momentum.

1. IF FED CUTS INTEREST RATE = \$RATE token price number go up.

Yaddi yaddi yadda, it goes up.

2. LATER WHEN FED HIKES RATES = \$RATE token price number go up, still.

Yaddi Yaddi Yadda, it goes up, still.

4. TEAM & DEV WALLET (0%)

We locked Liquidity and the "team" are just like any other holders. We came together to create this coin because we actually want to give a good narrative a solid non-malicious/ non-crime chance to prosper in this shit market. That said if anyone wants to fat finger a \$1M top blast - we don't mind such crime.

ROADMAP (2025-20??)

BE HERE WHEN RATES ARE CUT

Be here to capture the rate cuts.

BE HERE WHEN RATES ARE HIKED

Be here to capture the rate hikes.

MEME STIMULUS PROGRAM

If you buy the token then it only makes sense to just shill it. Be the Shill you want to see! The community is the stimulus haha. The money printer is broken here, I'm afraid.

LAUNCH OF \$RATE NEWS SITE (Pfft, maybe)

A satire-first media arm covering monetary policy, interest rates, and economic events through memes, shitposts, and hot takes. (Might launch might not launch, depends on if you guys make this worthwhile.)

DISCLAIMER & LEGAL NOTICE

\$RATE is a meme token created for entertainment, satire, and community building and engagement. It is not a financial instrument, security, or investment product. By interacting with \$RATE, you acknowledge the following:

- \$RATE has no intrinsic value, utility, or underlying asset backing.
- It does not represent any ownership, equity, or share in any project or company.
- It is not affiliated with any central bank, government agency, or individual such as Jerome Powell.
- Participation in \$RATE is entirely at your own risk.
- \$RATE may be subject to significant price volatility and regulatory scrutiny.

By acquiring or interacting with \$RATE, you agree to:

- Comply with all applicable laws in your jurisdiction.
- Accept full responsibility for any losses incurred.
- Refrain from treating \$RATE as an investment product.

No portion of this document constitutes legal, financial, or tax advice. Please consult with professional advisors before engaging with this or any other token. This whitepaper is for informational purposes only and may be updated, amended, or modified without notice. No regulatory authority has reviewed or approved this document. \$RATE tokens may not be offered or distributed in jurisdictions where such activities are prohibited.

Ownership of \$RATE does not:

- Entitle you to profits, dividends, or revenue.
- Imply any legal or economic rights beyond meme-based participation.

Trade \$RATE Responsibly.
